

## **Antec Scientific** the new Trade Name of Antec Leyden BV and Antec (USA) LLC

**Press Release: Antec Leyden BV, Antec (USA) LLC – Wed. March 1, 2017**

Zoeterwoude, Netherlands – Antec Leyden BV a developer of electrochemical detectors utilized in (U)HPLC and reactors utilized in Mass Spectrometry announced today the company will begin operating under a new trade name and be known as Antec Scientific effective immediately. At the same time, the company unveiled a new identity and announced the launch of their redesigned Web site [www.AntecScientific.com](http://www.AntecScientific.com) for later this month. The new site prominently features the company's focus on developing new technologies and applications to create research laboratory solutions.

CEO and President Jean-Pierre Chervet said, "Over a span of 25 years, due to our heavy focus on innovation and the development of new applications, our R&D department is responsible for a number of Granted Patents, two awarded in 2014, one in 2016, and one Patent Application pending, enabling research scientists to work with increased efficiency and accuracy. In most recent years, Antec has become increasingly engaged in global collaborations. In 2016, the collaboration with LEAP Technologies has brought HDX/MS to a new level of customer satisfaction, providing an improved customer solution of HDX/EC/MS integration. And, with the expansion of our training facility we not only offer Internship Programs, inspiring the scientist of tomorrow thru programs such as masters, PhD fellowships and post-doctoral fellowships, but also training for scientist both new and experienced in the field of electrochemistry. With these ground breaking developments our leadership team believes it was appropriate to rebrand our company to more specifically reflect what we do."

"We are very excited about the introduction of our new company name. We believe the name Antec Scientific allows us to better represent our business and increases awareness of the diversification within our company. Not only are we manufactures and suppliers of scientific instruments, but research scientists and educators. Our mission is to provide cutting edge technology along with support, service and education which promotes success in the use of electrochemistry for our customers." said Martin Eysberg, Director of Sales and Marketing.

"Changing our name to Antec Scientific formalizes a shift in corporate strategy that has been underway for several years. We will pursue this strategy to provide our customers with state-of-the-art electrochemical instruments and the knowledge to become successful in the field." Added Dr. Nico Reinhoud, Antec's Managing Director. "All of our services and proven technology are backed by the same experienced team and bring the same expertise that our customers rely on. We want to ensure that our image and name accurately reflect what we do."
