

HPAEC-PAD – the advantages of a solution-based analyzer concept

Presenter:	Dr. Detlef Jensen
When:	May 22, 9:30h
How long?	45 to 60 minutes (max)
Where:	Online Seminar
Registration?	Required
Log in details	It will be provided well in advance.

Topics of this Webinar

- Introduction to the separation of carbohydrates (HPAEC)
- Fundamentals of amperometric detection of carbohydrates (PAD)
- Hardware considerations – combining modules, or follow a design concept?
- Flow cell design
- Practical hints regarding calibrations
